

CITY OF WICHITA  
DEPARTMENT OF PUBLIC WORKS  
STORM WATER MANAGEMENT DIVISION

**EROSION CONTROL PLANNING GUIDE  
FOR  
UTILITY CONSTRUCTION**

Utility companies should use this planning guide, along with the “Erosion Control Instructions for Utility Work” to plan and document the erosion control practices that must be used on any given project.

Name of Project:

Owner:

General Project Location:

Planned Date to Begin Construction:

I.	<u>Construction in Subdivisions:</u>	Applicable		Not Applicable	
		Yes	No	Yes	No
1.	Has the developer filed a Notice of Intent with KDHE?	Yes	No		
2.	Have you reviewed the developers Storm Water Pollution Prevention Plan for the site and agreed to comply with it?	Yes	No		
3.	Do you have a copy of the “Erosion Control Instructions for Utility Work”?	Yes	No		
4.	Are there erosion control devices already on site that will need to be protected?	Yes	No		

If yes, describe device and location:

	<u>Device</u>	<u>Location</u>
1.		
2.		
3.		
4.		
5.		
6.		
7.		
8.		
9.		
10.		

5.	Do stabilized construction entrances exist?	Yes	No
----	---	-----	----

Will you have to install your own entrances?	Yes	No
--	-----	----

If yes, where?

6.	Has the developer provided washout pits for concrete trucks?	Yes	No
	Will you have to install your own pit?	Yes	No

If yes, where?

7. List materials to be furnished to crews to enable them to repair or replace damaged erosion control devices at this site:

8. Will your work at any location disturb earth that could result in sediment being washed into streets, storm sewers, ditches, or lakes that are not already protected by erosion control devices?

If yes, where?

9. If the answer to Section I.8 above was yes, describe the erosion control device that you will install at each listed location to prevent erosion:

	<u>Location</u>	<u>Device to be Used</u>
1.		
2.		
3.		
4.		
5.		

II.	<u>Construction or Commercial Building Sites:</u>	Applicable	Not Applicable
-----	---	------------	----------------

1.	Is this site larger than 5-acres in size?	Yes	No
	If yes, has the owner filed a Notice of Intent with KDHE?	Yes	No
2.	Have you reviewed the owners Storm Water Pollution Prevention Plan and agreed to comply?	Yes	No

3. Complete Sections I.3, 4, 5, 6, 7, 8, and 9 above.

III. Construction at Residential Building Sites:                      Applicable      Not Applicable

1. Complete Section I. 3, 4, 5, 6, 7, 8, and 9 above.

IV. Construction Along City Streets:                      Applicable      Not Applicable

1. Will work result in disturbing or stockpiling excavated earth within 8-feet of back of curb?                      Yes              No

If yes, back of curb erosion control devices are required. List devices to be used:

- 1.
- 2.
- 3.
- 4.
- 5.

2. Inlet protection on existing downstream inlets is required. List inlet location(s) and devices to be utilized:

<u>Location</u>	<u>Device</u>
-----------------	---------------

- 1.
- 2.
- 3.
- 4.
- 5.

3. Are there any locations on site where sediment laden runoff from your site can runoff into ditches or lakes?                      Yes              No

If yes, erosion control devices will be required at these locations. List location and type of device to be used:

<u>Location</u>	<u>Device</u>
-----------------	---------------

- 1.
- 2.
- 3.
- 4.
- 5.

4. Upon completion of your work, the site must be restabilized with seeding and fertilizer, or sod. Please describe your plans for permanent restabilization:

Erosion control devices must be inspected and maintained in place until the site is restabilized.
